

Scottsdale Plastic Surgeon Named one of Phoenix's Top Doctors

One of Scottsdale's premier plastics surgeons was named to the list of Top Doctors by his peers in the April 2008 issue of Phoenix Magazines TOP DOCTORS issues. "This is a tremendous honor, and is an unexpected pleasure. One of the biggest compliments a physician can get is recognition by his or her peers."

One of the exceptional things that differentiates Dr. Gawley from other plastic surgeons is his ability and desire to offer reconstructive services as well as cosmetic procedures. "Both types of surgery are very rewarding and challenging. The reconstructive surgery I offer really allows me to 'give back' and help patients that normally would not consider or be able to afford plastic surgery."

Dr. Gawley's talent and skills that earn him such peer recognition make him one of the most highly sought after aesthetic plastic surgeons in the Scottsdale and Phoenix area. He is a leading expert in cosmetic surgery of the breast, body and face. Dr. Gawley is board certified by the American Board of Plastic Surgery, and the chief of plastic surgery at the Scottsdale Shea Hospital. He is an active member of the American Society of Plastic Surgeons.

With the Mommy makeover craze in the media, it is often difficult to differentiate surgeons who are truly qualified to deliver the results that these patients demand. His expertise in both breast enhancement and body contouring have made him the natural choice for many of the Phoenix area mothers who long for a return to the pre-pregnancy shape and figures. "Mommy makeovers, or post-pregnancy rejuvenation procedures are some of the most rewarding cosmetic surgeries that I perform," says Dr. Gawley. "Patients see immediate results and have remarkable improvement in self-esteem, and self-image. " In short says Dr. Gawley, "these women deserve this!"
