Phoenix Surgeon Dr. Gawley Welcomes New Doctor to the Practice

Dr. Bryan Gawley is proud to announce he has added a new member to his experienced team.

PHOENIX, AZ: Board-certified plastic surgeon and founder of Gawley Plastic Surgery, Bryan Gawley, MD, has added a new member to his team- Dr. Raman Mahabir.

Dr. Mahabir is board-certified by both the American Board of Plastic Surgery and the Royal College of Physicians and Surgeons of Canada. In recognition of his accomplishments and excellence in Plastic Surgery, Dr. Mahabir was named the 2017-2018 Plastic Surgery Foundation's Visiting Professor and has become one the most sought-after plastic surgeons in Scottsdale, Phoenix, and the surrounding areas.

Dr. Gawley met Dr. Mahabir as the Chair of Plastic Surgery at the Mayo Clinic and found that they shared a similar commitment to providing patients with personalized care and natural results. Together they recognized the synergy, and after Dr. Mahabir completed his four-year term as Chair at Mayo, he then decided to join Gawley Plastic Surgery.

Part of that synergy includes Dr. Mahabir's particular interest in both Cosmetic and Reconstructive Breast surgery. Dr. Mahabir is skilled as a micro-surgeon and prides himself in making sure that his breast reconstruction patients are aware of all of their options for breast reconstruction.

Gawley Plastic Surgery is honored to have Dr. Mahabir join their team. Having Dr. Mahabir in the practice will allow Gawley Plastic Surgery to see new patients more quickly and expand the number of breast reconstruction patients seen in the practice.

About Dr. Gawley

Dr. Gawley is the founder and owner of MDSkin – The Lounge & The Bar, Arizona Center for Reconstructive Breast Surgery, and Gawley Plastic Surgery. He performs plastic and cosmetic surgery of the face, body, and breasts, as well as an array of nonsurgical skin revitalization procedures. He performs all cosmetic and plastic surgery procedures in the licensed and accredited North Scottsdale Outpatient Surgery Center.

He is also a surgeon at the Arizona Center for Reconstructive Breast Surgery, which specializes in breast reconstruction surgery. The center is known for its DIEP Flap procedure, which is a sought-after technique that is not offered by all surgeons and hospitals because it requires special surgical training. He collaborates along with a team of experienced surgeons to combine the latest reconstruction techniques with a selection of breast reconstruction procedures for natural-looking results.
